# Part A: Pupil premium strategy plan

## Statement of intent

At St Mary's Church of England primary, we believe that every child is a precious gift from God where each child is special and unique. Children are at the heart of every decision we make here at St Mary's and it is our mission for all our children to love, learn and flourish.

We are committed to providing our pupils with the best possible education through a carefully planned and sequenced curriculum designed for all children to know more and remember more. We are committed to providing an engaging learning environment where teachers provide high-quality first teaching to meet the needs of all pupils. Using ongoing assessment for learning and the expertise of staff, gaps in learning are quickly identified and targeted support is provided to close the gap.

We aim to provide children with a wide range of opportunities and experiences to further enhance the education provided. It is our mission to ensure all children who leave St Mary's do so with a heart full of love and a mind full of knowledge and cherished memories.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Attendance
2	Mental health and wellbeing
3	Attainment of pupils
4	Access to wider opportunities

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

## Part B: Review of the previous academic year

### Outcomes for disadvantaged pupils

	Reading % achieving EXS	Writing % achieving EXS	Maths % achieving EXS
KS1	PPG 75% Non PPG 72.7%	PPG 75% Non PPG – 63.6%	50% EXS Non PPG – 72.7%
KS2	Data suppressed as this could identify individuals		

In KS1 pupils in receipt of pupil premium funding achieved broadly in line with the national average in Reading and Writing, achieving better than that of their non-pupil premium peers. It is important to note that pupils included in performance data will have experienced some disruption due to Covid-19 earlier in their schooling, which will have affected individual pupils and schools differently.

As the pupil premium strategy is reviewed it is noted that there is an increasing number of disadvantaged pupils achieving the expected standard in reading and writing, although more consideration is needed to support within maths. Pupil attendance for those identified in 2023-24 overall was 89%, there is further work to be undertaken to improve attendance figures for this group of pupils across school. Due to changes in leadership it is difficult to demonstrate the impact on children's resilience and emotional literacy.
